

Unique designs, every time

Now you can make every project one of a kind

As a top flight partner for designers, cabinetmakers, and kitchen manufacturers, Thermoform is creating new design opportunities inspired by the freshest, boldest trends in thermoplastics.

1-PIECE DOORS

Offer your customers top of the line polymer cabinets in an incredible array of colors, patterns, textures, and finishes. Add extensive molding and trim options and the combinations are endless!

5-PIECE DOORS

Get the best of both worlds—the durability of polymers and the look of wood. Our 5-piece polymer door looks just like traditional wood cabinetry. It's so durable and easy to clean, the choice is obvious.

OUTDOOR KITCHENS

Our new line of outdoor cabinetry is game changing for anyone designing outdoor living spaces. Not only can it stand up to whatever the weather blows its way, our XT line also gives you more design options than ever before.

SCRATCH-RESISTANT ACRYLIC

Our acrylic products are nothing short of stunning. You get high-gloss cabinets available in a number of brilliant colors that stand out with their striking look. A sure choice, our acrylic is highly scratch resistant. Plus edging is applied using the best polyurethane technology, hot melt adhesives that form the strongest bonds.

REFACING MATERIALS AND ACCESSORIES

Our 10-foot moldings, peel-and-stick sheets and edging range are specially designed for refacing experts. Countless possibilities to help you give a second life to the space you're working on.
